

Do you know of any K-12 public schools in your area using deliberate single-sex education?

- How many coed schools with single-sex academic classes are in your state?
- How many public all-girl or all-boy schools?
- Is this information on the school or district websites?

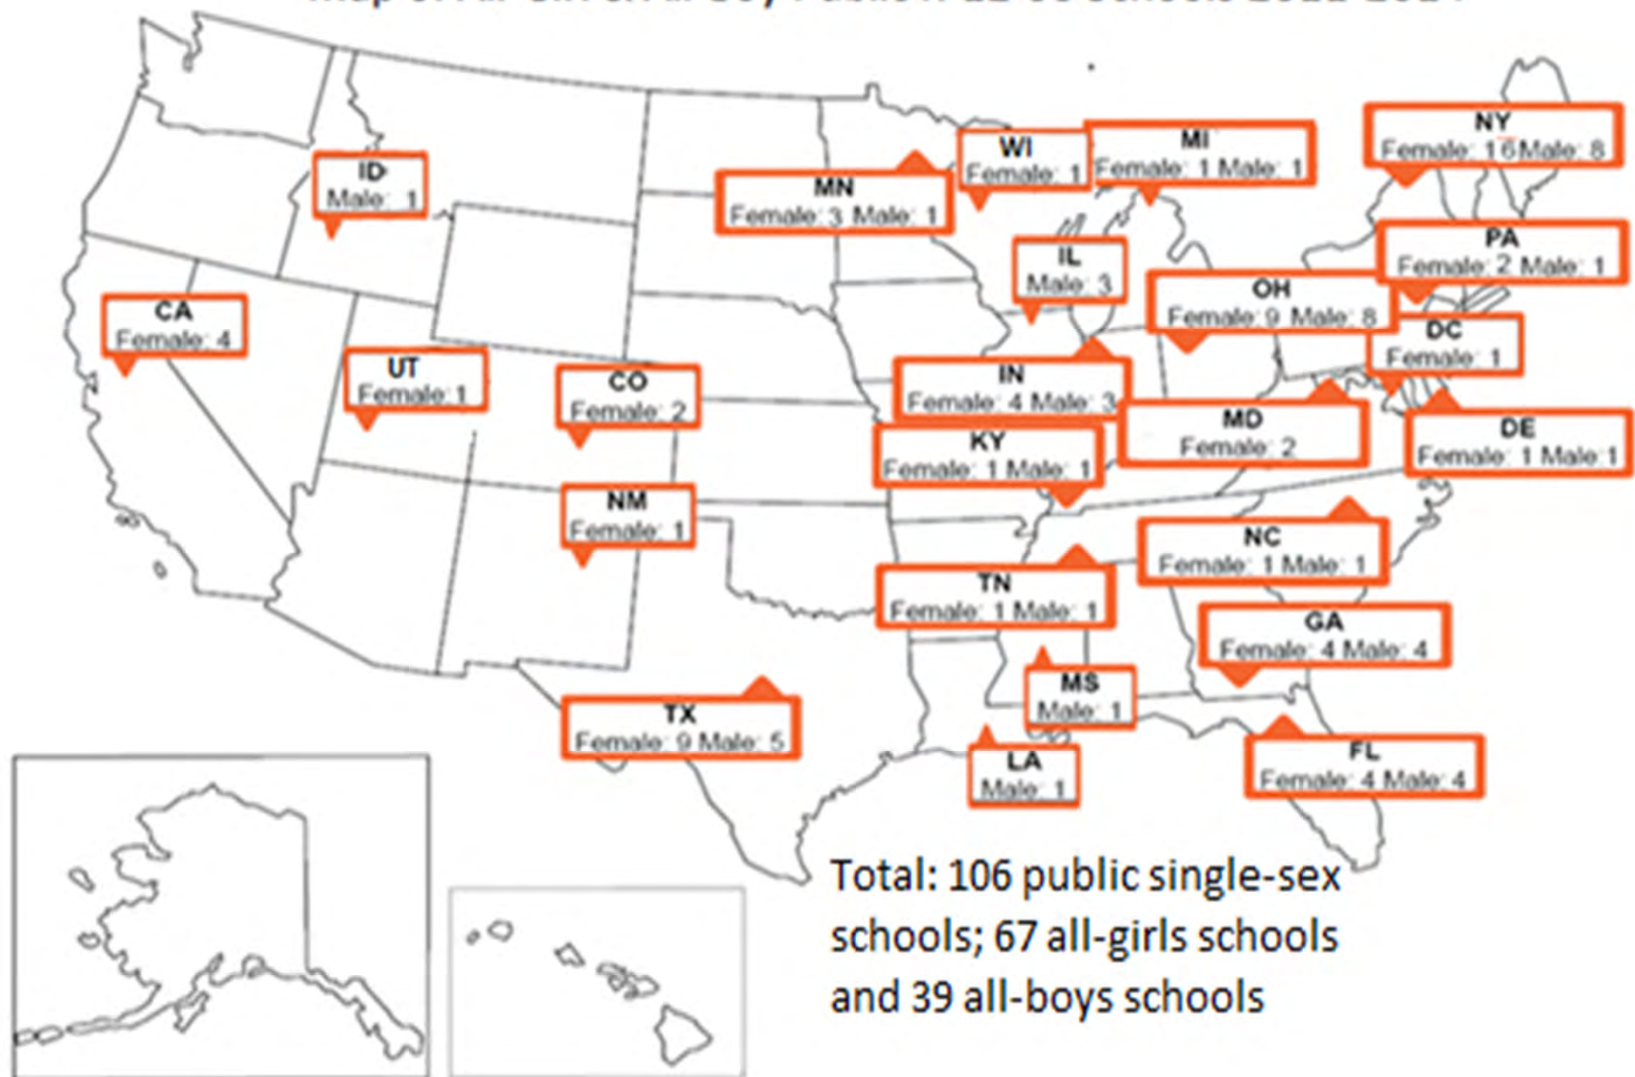

FMF conducted 2 multi-year studies to try to identify these K-12 schools

- Both studies used OCR Civil Rights Data Collection responses and other information.
- 2007-10 study found 564 coed schools with single-sex academic classes and 82 single-sex public schools.
- **Totals on Maps for 2011-12** study show 24% increase to 699 coed schools with single-sex academic classes and 29% increase to 106 single-sex public schools.

Map of Coed K-12 Schools with Single-Sex Academic Classes

Map of All-Girl & All-Boy Public K-12 US Schools 2011-2014

Key Findings

- These 805 public schools with deliberate sex segregation, mainly serve African American and Latino/a students.
- Missing Information. Rare to find web information. Need update of lists for 2014-5 and details re compliance with guidance.
- Likely that **most schools not in compliance with ED single-sex guidance**. For example, if most of the classes were single-sex, the school probably didn't have comparable coed classes.

Need your Phase 1 and Phase 2 Help

1. Identify schools with current or planned sex segregation.

- Start with FMF lists from new report
- Insist that this information be included in school websites along with information on Title IX coordinators.
- Send information to verify or add schools to sklein@feminist.org

2. Are these schools in full compliance with ED guidance and justified? Also

good evaluation plan, cost effective

Let FMF & ACLU know if questionable compliance

- Get help from Title IX Coordinators and other school officials to comply
- Official Title IX complaint or lawsuit
